

**ARTICULATION AGREEMENT BETWEEN
ALBANY STATE UNIVERSITY
AND
TECHNICAL COLLEGE SYSTEM OF GEORGIA**

INTRODUCTION

This articulation agreement formally recognizes that Albany State University and the Technical College System of Georgia are active educational collaborators, committed to providing greater educational opportunities and services for students transferring between institutions. This commitment strongly supports the concept of seamless transfer that embraces the principle that transfer students should not be required to repeat competencies already achieved.

Albany State University and the Technical College System of Georgia enter into this articulation agreement in the spirit of cooperation and to mutually recognize each other as quality institutions of higher learning. Each institution is dedicated to serving students from diverse populations.

PURPOSE

The purpose of this articulation agreement is to enable graduates of the Associate of Applied Science in Fire Science Technology degree program from colleges of the Technical College System of Georgia to seamlessly carry with them credit hours to the Bachelor of Applied Science in Fire Services Administration degree program at Albany State University, as provided in the attachment which is made a part of this agreement. This state-wide articulation agreement is intended to facilitate this program option among the colleges of the Technical College System of Georgia with Albany State University.

TERM

This articulation agreement will be effective on the date of signing the agreement. Either party may terminate this articulation agreement upon giving written notice to the other party. Such notice must be given one full semester prior to the agreement being terminated. Should the articulation agreement be terminated, students enrolled will be given the opportunity to complete the program, not to exceed one year.

CONDITIONS

1. The attachment contains the courses that will be accepted by Albany State University. A maximum of 54 semester hours will be accepted by Albany State University. Additional semester hours must be scheduled at Albany State University to satisfy at least 120 semester hours required for graduation and/other requirements of Albany State University and the University System of Georgia.
2. Albany State University and the participating colleges of the Technical College System of Georgia will provide adequate documentation for faculty teaching accepted courses upon request of any party. The SACSCOC credential guidelines will be followed to assess faculty qualifications, in addition to other quality factors that demonstrate teaching competence.
3. Upon request, each college will provide syllabi of all accepted courses to the other. Any college, at its election, may conduct a review of course syllabi of all accepted courses from the other to ensure that all courses are comparable in content.
4. Technical College System of Georgia Associate of Applied Science in Fire Science Technology degree graduates are required to have attained a "C" or better in each course for Albany State University to accept coursework. No coursework will be accepted by Albany State University unless the student has earned the Associate of Applied Science degree in Fire Science Technology from one of the participating colleges of the Technical College System of Georgia.
5. Admissions will be open to students with an Associate of Applied Science degree in Fire Science Technology from SACSCOC accredited Technical College System of Georgia Colleges.
6. The courses for the Bachelor of Applied Science in Fire Services Administration degree program will be offered with an online option by Albany State University.
