Covington, GA 30014

The NEWTON WORKS Manufacturing READY program is an intensive 5-week program that prepares individuals for success in the rewarding field of manufacturing.

NEWTON WORKS Manufacturing READY is geared towards unemployed and underemployed individuals who have little or no manufacturing experience, but who wish to re-enter the workforce with new and in-demand skills. The program connects students to Newton County's manufacturing companies, which quite often leads to employment. The program fee and all required materials are covered for those who meet eligibility requirements.
